

Interiors & Partitions

The Power Of Space

CPS gives you the flexibility you need for effective space management. Our interior partitions and folding walls move easily within your office space to make your layout changes quick and easy. CPS systems provide you with an adaptable solution to any present or future space needs.

Demountable Office Partitions

When your office needs change, our partitions can be quickly disassembled and reassembled to meet different configuration requirements.

Interior Layouts

Our interior partitions offer great flexibility, aesthetic appeal and economic value with all installations.

Contain Protect Shelter

Folding Wall

Economical and flexible, these folding walls have rugged steel frames with ball bearing trolleys in heavy duty tracks to provide easy and trouble free operation.

Operable Partitions

These operable partitions can be used to remodel existing large areas into smaller subdivided rooms quickly and cost effectively. We offer integral insulation plus sound absorbing finishes that provide a high degree of sound control. Finishes are available in wood, melamine vinyl, carpet, fabric and acoustical surfaces.

Electric or Manual Operation

Electric or manual operation partitions easily achieve sound control, privacy, security, versatility and space operation. These structures have proven to be beneficial in the following spaces; meeting rooms, hotel ballrooms, banquet facilities, school gymnasiums, classrooms, theatres, etc.
