

Relocatable Offices

Making It Easy

These offices are easily erected and just as easily relocated. Single unit offices to multi-sectional add-ons can be permanently fixed to existing structures or serve as a temporary solution to current space problems. Don't pay more for on site construction when CPS offers an economic factory built space solution.

Waterloo Credit Union Interior

A multi-sectional relocatable office with unobstructed open areas, is a cost effective solution to any office space need. Many options are available for custom interior designs.

Waterloo Credit Union Exterior

Relocatable offices are a smart investment when deciding on additional office locations. In some instances, where location may cause a problem in the future, relocatable offices are often a flexible and reliable solution.

Contain Protect Shelter

Regional Dialysis Unit

CPS specializes in accommodating your company with a design that reflects your environment, providing continual consistency with any existing buildings. The choice is yours, our designers will help co-ordinate an interior to suit your tastes and needs.

Portable Environments

CPS builds quality accommodation for all types of businesses and institutions. We can add extra space to your existing structure or your CPS building can be totally free-standing. Our buildings can be a short-term solution to space problems or as permanent as any conventional structure.

Portable vs. Conventional Construction

CPS sectional buildings have many advantages over conventional construction. In general, CPS structures are less expensive and are built in a controlled facility, therefore high standards of quality are maintained.
