

VINYL SPONGE

Safe-N-Easy™

CONSTRUCTION:

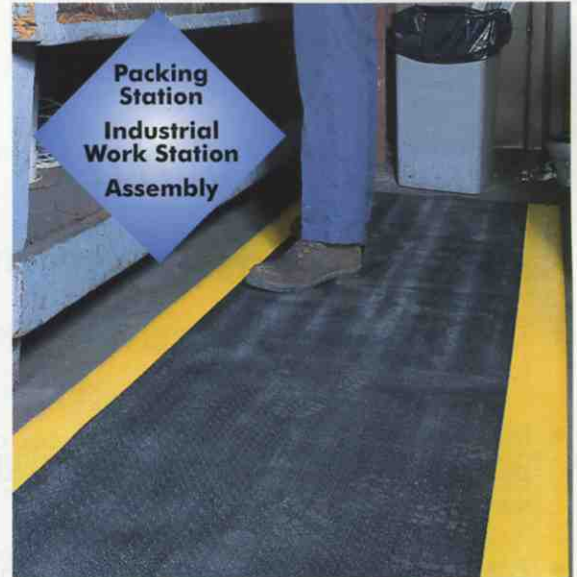

- 3/8" thick closed cell vinyl sponge foam.
- Available in a non-slip pebble or rib surface.
- Can be polyurethane coated to add durability and to resist chemicals.
- Colour availability: black with yellow borders.

FEATURES AND BENEFITS:

- Bright yellow borders provide an extra margin of safety and create a warning alert around hazardous work areas and equipment, as well as a visual warning in areas where slips and falls are likely to occur.
- Relieves muscle tension when standing, reduces noise and insulates from the cold.
- Bevelled borders reduce slip and trip hazards.
- Pebble surface provides greater wear and abrasion resistance than ribbed surface.
- Resistant to most common fluids and chemicals.

Black with Yellow Pebble Surface

Black with Yellow Rib Surface

Cloud-10™

CONSTRUCTION:

- 1 1/4" thick mat made of 100% closed cell vinyl sponge.
- Bevelled edges on all four sides with a narrow ribbed surface.
- Can be customized with foot slots or cut-outs to accommodate foot pedals on machinery.
- Available in mat sizes only.
- Colour availability: Gray

FEATURES AND BENEFITS:

- Cloud-10 is a cushioned work platform which provides superior anti-fatigue benefits.
- Bevelled on four sides for added safety.
- Narrow ribbed surface extends the life of the mat.
- Platform height is designed to allow industrial operators easier access to foot activated controls.
