

DRAIN-THROUGH MATTING - The hazard and accident prevention, anti-fatigue solution for all wet and slippery areas.

Safety Step™

CONSTRUCTION:

- Vulcanized rubber modular mat with circular drain-through holes and multi-nib backing.
- Overall thickness 3/4".
- Built-in connectors on one side allow easy assembly of mats for large areas.
- Bevelled edges and corners available to reduce the danger of tripping and falling.
- Colour availability: Black (general purpose)
Brick red (grease proof)

FEATURES AND BENEFITS:

- Multi-nib back anchors the mat to the floor and allows for maximum drainage of liquids, debris and reduces slipping.
- Red grease proof mats withstand the effects of organic fats and grease making this mat ideal for the food industry, butcher shops and food processing plants.
- Durable, cushion rubber allows muscles to gently flex, relieving tension and soreness.
- Slip resistant surface.
