

Cushion Tile™

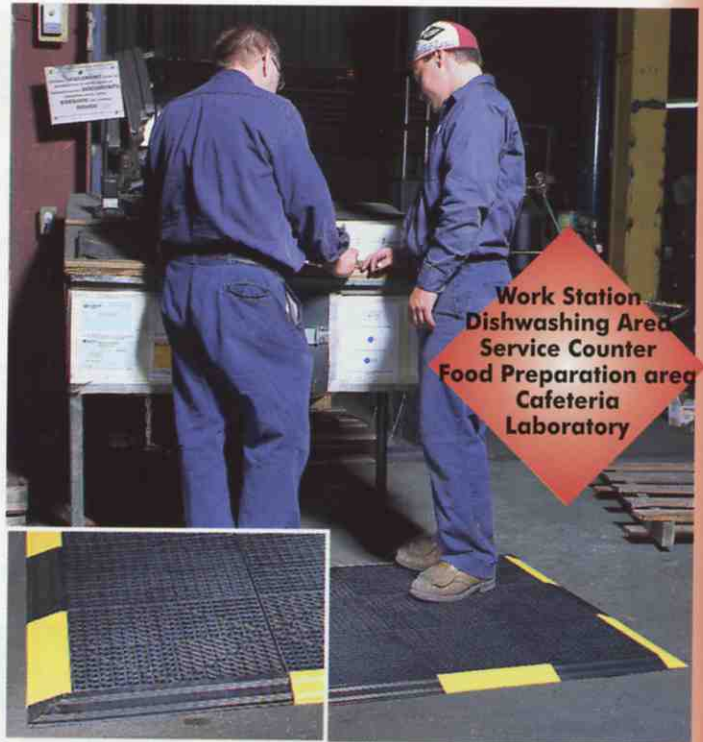

CONSTRUCTION:

- 100% vinyl 12" x 12" modular tiles 3/4" thick.
- Heavy duty construction gives lasting performance for interior and exterior use in both dry and wet areas.
- Bevelled ramps and corners available in black or "safety added" yellow.

FEATURES AND BENEFITS:

- Raised surface provides a moderate cushion for hard surface floors preventing muscular stress and tension.
- Waffle grid surface allows for maximum drainage of liquids and small debris.
- Available with a non-slip grit surface for additional safety and accident reduction.

Anti-Fatigue Good	Wear Resistance Better	Slip Resistance Best
Standard Tile Sizes 12" x 12"		

Sheer Grip™

CONSTRUCTION:

- Heavy Duty 100% vinyl duckboard with a textured grip surface.
- Colour availability: blue, red or gray.

FEATURES AND BENEFITS:

- Withstands abrasion, will not rot, chip, rust, mildew or splinter.
- Resists oils, grease, fats, alkalis and acids.
- Open grid design allows for excellent drainage.
- Serrated surface improves traction reducing the slip hazard.
- Maintains flexibility from -40 degrees to 100 degrees C.
- Soft, flexible surface provides excellent anti-fatigue benefits.
- Excellent for wet areas.
