

# Corec™

## CONSTRUCTION:

- Extruded commercial grade vinyl runner with a narrow, deep ribbed slip resistant surface and a rough, coarse-grained back.
- Overall thickness is 3/32".
- Available in black and brown.

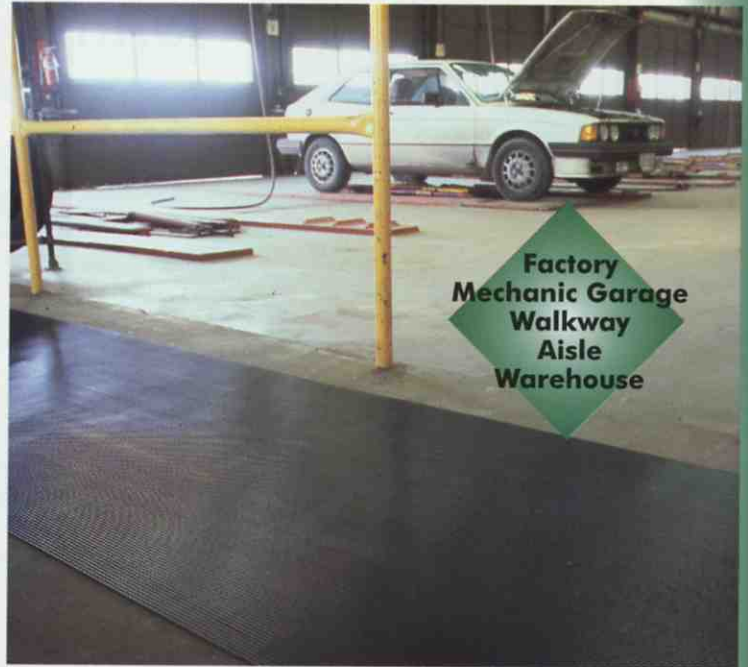

## FEATURES AND BENEFITS:

- Dirt, grime and debris is trapped in grooves until removed with a broom or a mop.
- Excellent resistance to many commercial and industrial chemicals.
- Rough, coarse-grained back anchors the mat in place; preventing sliding.

# Corrugated Rubber

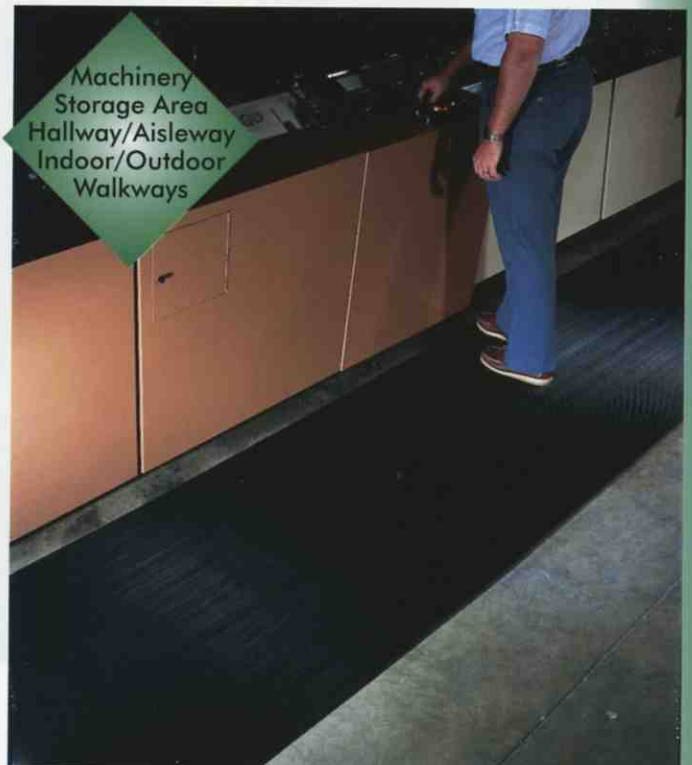

## CONSTRUCTION:

- 100% high quality solid rubber runner with deep grooved surface.
- Available in 1/8" or 1/4" thickness.
- Colour availability: black.

## FEATURES AND BENEFITS:

- Unique deep grooved surface improves safety with increased traction even when wet.
- 100% durable rubber composition gives exceptional wear while protecting floors and reducing maintenance costs.
- Resistant to many common fluids and chemicals.
