

● Slip Resistant Vinyl Runner

CONSTRUCTION:

- Solid extruded vinyl runner with wide rounded ribbed surface and cross-linked abrasive surface coating.
- Overall thickness 3/16".
- Available in brown.

FEATURES AND BENEFITS:

- Heavy duty vinyl runner gives superior anti-slip and trip protection in wet or dry areas.
- Impervious to most greases, oils and chemicals, but is exceptionally resistant to hot oil splashes and food exposure.
- Rough, course-grained under surface anchors the mat to the floor eliminating sliding.
- Easy to maintain.

● Anti-Slip Traction Pads

CONSTRUCTION:

- Abrasive surface, self-adhesive traction enhancing strips.
- Pre-cut strips: 50/carton
- Colour availability: Black.

FEATURES AND BENEFITS:

- Rough, textured surface improves traction and minimizes slipping hazards in slick or wet areas.
- Self adhesive strips make for easy installation. Floors must be clean, dry and free of oil, dirt, dust, waxes or solvents.
- Suitable for metal, primed concrete or primed wood applications.
- Interior and exterior applications.
- Resistant to many common fluids and chemicals.
